July 15 - 22, 2014
Colorado School Of Mines • Golden, Colorado

The American Chemical Society Summer School on Green Chemistry & Sustainable Energy will be held July 15 - 22, 2014, at the Colorado School of Mines in Golden, Colorado. The program is open to graduate students and postdoctoral scholars from the United States, Canada, and Latin America.

Participants will learn about innovations in green chemistry and sustainable energy through presentations by leading researchers, collaboration on group projects, discussions on the role of science and technology in resolving global sustainability challenges, and poster presentations.

There are NO program fees. Transportation, on-campus housing, and meals will be provided.

Application deadline is March 21, 2014. For application details, please visit:
